

BP Scholarship Application Process Technology Program

General Scholarship Information

- Applicants must be an Alaska resident.
- This scholarship is for students who are enrolling or currently enrolled in the Process Technology two-year degree program offered at University of Alaska – Anchorage or Fairbanks, or Kenai.
- Scholarship retention will be evaluated at the end of each semester and will be based on student performance against the requirements as described below.
- Students have up to three years to complete the Process Technology degree program.
- The maximum funding level of any scholarship is \$3000 per semester and \$12,000 total.
- The funding level per semester will depend on the number of credits taken.
- While BP offers other scholarships, each selected student for the Process Technology Program may receive only one BP Scholarship.
- This scholarship will provide for training for those who are interested in a career in Process Technology and the challenges of controlling operations in a process industry using and controlling mechanical, physical or chemical processes to produce a final product.

Levels of Funding

Level 1 - for students who will be taking 12 or more credits/4 or more courses:

Up to \$3000 per semester to complete courses required for the Process Technology degree. This level of funding is for students who are enrolled as FULL TIME students taking a minimum course load of 12 credits with at least two of the 9 core Process Technology courses each semester.

Level 2 - for students who will be taking 9+ credits (Part-time student):

Up to \$2000 per semester to complete courses required for the Process Technology degree.

Level 3 - for students who will be taking 6+ credits:

\$1500 per semester to complete courses required for the Process Technology degree.

Academic Requirements for all Process Levels: each semester the student will be required to attain the following in order to continue receiving scholarship funding:

- 2.5 grade point average in each academic course
- Written evidence of satisfactory academic progress from the instructor which reflects good class standing
- Not on academic probation for any cause

Students will be required to submit college letters **and** transcripts verifying grades and attendance at the end of each semester and/or school year in order for monies to be released for the upcoming semester. Summer school attendance constitutes one semester.

Application Requirements:

Required Documentation to be submitted with the application form:

1. Student application form.
2. Official high school and/or college or technical training transcripts; high school transcripts not required for high school graduates prior to 1990.
3. If you are a currently enrolled college student enclose a completed / signed degree plan from a college advisor.
4. Three letters of recommendation to include contact phone numbers. Letters should reflect evidence of good interpersonal and team skills. Letters should be from the following:

Former/Present employer(s)/ teachers	1-2 letters
Character Reference	1 letter

5. Short one-two page essay to describe why you want to participate in this program. The essay should indicate the research done by the applicant about process technology careers. This will also provide us a sample of your writing skills.
6. Detailed description of any technical training and past technical work experience. Please be very detailed in listing your job duties from each job. Include volunteer work experiences.

Scholarship documentation must be mailed to:

Carol G. Kane, Executive Director
Alaska Association of Secondary School Principals
P.O. Box 2889, Palmer, Alaska 99645
Email: aassp@alaskaprincipal.org
Website: www.alaskaprincipal.org
